The cost of solar panels

Overview

How much do solar panels typically cost to install in a home?

The average cost to install solar panels is from $10,626 to $26,460 (after tax credit) for a 6kW to 12kW system to power an entire house. The average solar panel payback period is 7 to 12 years, and solar energy saves $600 to $2,000 per year on electricity costs.

What is the average cost of solar panels in the United States?

The average cost to install solar panels in the United States is about $12,000 after federal tax incentives. On the low end, you can install a smaller system for around $5,000, while a high-priced Tier 1 solar panel system can cost $40,000 or more. There are additional costs that go into an installation project beyond the price of panels.

How much does a 6 kW solar panel installation typically cost?

Solar panels cost $1.77 to $2.20 per watt and a 6 kW solar panel installation for the average home costs from $10,626 to $13,230 after the 30% federal solar tax credit. Solar energy costs $0.08 to $0.10 per kWh to produce on average, depending on your location.
