

The largest behind-the-meter energy storage project

Overview

The project, Gigawatt 1[®], includes the largest behind-the-meter solar plus battery project in the world and will create more than 1,000 new jobs. What is the largest battery storage project in the world?

The 300 MW project from Vistra Energy and the 182.5 MW project from Tesla, Inc. are among the largest battery storage projects in the world. PG&E is also planning to replace an aging 165 MW facility in Oakland with a mix of preferred resources, including energy storage.

What will be the largest behind-the-meter battery storage system in North America?

Enel X's Head of North America Surya Panditi and Ontario's Minister of Energy Todd Smith both said it would be the largest behind-the-meter battery storage system in North America once complete.

What is the energy storage project?

The Gilboa pumped storage power plant is an energy storage project that involves constructing a power plant to pump water from a low-level reservoir to a high-level reservoir, with a height difference of 574 meters. This environmentally friendly plant complements the unique landscape of the North of Israel.

Where is the battery energy storage system being built?

Imperial Oil's refinery at Sarnia where the battery storage is being built. Image: Enel X/Imperial Oil. The energy transition arm of Italy's Enel Group has started construction on a 20MW/40MWh behind-the-meter (BTM) battery energy storage system (BESS) at Imperial Oil's petrochemical complex in Sarnia, Ontario, Canada.

Will Alberta start a solar project with a flow battery energy storage system?

Construction has started on two solar projects in the Canadian province of

Alberta, including one with a flow battery energy storage system. From pv magazine USA

The largest behind-the-meter energy storage project

[Ground broken on city of Fresno's large solar](#)

The Fresno-Clovis Regional Wastewater Reclamation Facility site is expected to be one of the largest behind-the-meter solar energy and battery ...

Australia's biggest behind-the-meter energy storage ...

The Monash Smart Energy City project, developed as part of the University's goal to achieve zero net emissions by 2030, has reached a new ...

Kehua Breaks Records with China's Largest Behind-the-Meter ...

On January 15th, 2024, the 61MW/123MWh Nangang Energy Storage Power Plant Project, the largest behind-the-meter energy storage power plant in China, was successfully connected to ...

Commercial & Industrial

NRStor is the largest behind-the-meter energy storage developer in Ontario and we work with mid-to large commercial and industrial energy

consumers. We ...

Enel X to deploy 40 MWh of BTM battery storage at ...

The energy transition arm of Italy's Enel Group has started construction on a 20MW/40MWh behind-the-meter (BTM) battery energy ...

[Enel X's Major Battery Energy Storage Project](#)

Read about Enel X's project with Imperial Oil, likely the largest behind-the-meter battery energy storage system in North America.

[Energy Abundance Announces Data City, Texas](#)

Energy Abundance's management team has extensive experience in large-scale global energy development and behind-the-meter project engineering, having developed, built, ...

Ground broken on city of Fresno's large solar + storage project

The Fresno-Clovis Regional Wastewater Reclamation Facility site is expected to be one of the largest behind-the-meter solar energy and battery storage projects in California, ...

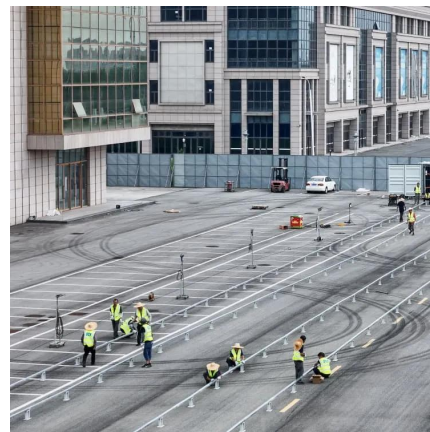

Irvine Ranch Water District and Macquarie Capital announce ...

The award-winning behind-the-meter battery system at IRWD's Michelson Water Recycling Plant is the centerpiece of an even larger 7 MW/34MWh network of 11 battery arrays set up at water ...

Irvine Ranch Water District and Macquarie Capital announce ...

The award-winning behind-the-meter battery system at IRWD's Michelson Water Recycling Plant is the centerpiece of an even larger 7 MW/34MWh network of 11 battery ...

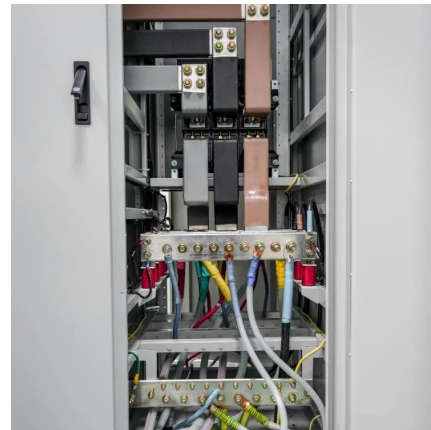

Optimal Sizing of Behind-the-Meter Battery Storage for Providing ...

This paper focuses on an advanced optimization method for optimizing the size of the behind-the-meter (BTM) battery energy storage system (BESS) that provides stackable ...

Honeywell and NRStor C& I launch largest behind-the ...

Honeywell has announced an agreement with NRStor C& I L.P. to launch the Experion® energy programme, which will create the largest ...

Honeywell and NRStor C& I launch largest behind-the-meter battery energy

Honeywell has announced an agreement with NRStor C& I L.P. to launch the Experion® energy programme, which will create the largest behind-the-meter (BTM) energy ...

Gigawatt 1, World's 'Largest Behind-the-meter Solar Project'

Additionally, the Storey County location will be the largest behind-the-meter solar project in the world producing 127MW and will include a 240 MW hour battery storage system. ...

Kehua Breaks Records with China's Largest Behind-the-Meter Energy

On January 15th, 2024, the 61MW/123MWh Nangang Energy Storage Power Plant Project, the largest behind-the-meter energy storage power plant in China, was successfully connected to ...

IRWD and Macquarie Capital Announce Completion ...

Advancing the cause of sustainability, Irvine Ranch Water District (IRWD) and Macquarie Capital today announced completion of the nation's largest energy ...

Gigawatt 1, World's 'Largest Behind-the-meter Solar ...

Additionally, the Storey County location will be the largest behind-the-meter solar project in the world producing 127MW and will include a 240 ...

Australia's Biggest Behind-the-meter Storage Project Goes Live

UK energy storage company redT has switched on a 1 MW facility at Australia's largest university - marking the country's largest behind-the-meter commercial and industrial ...

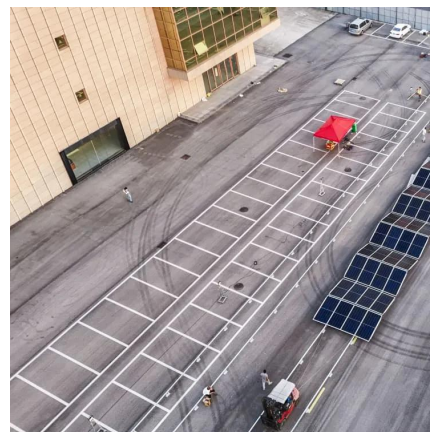

IRWD and Macquarie Capital Announce Completion of the Largest Behind

Advancing the cause of sustainability, Irvine Ranch Water District (IRWD) and Macquarie Capital today announced completion of the nation's largest energy storage system being used for on ...

Construction starts on 27 MW behind-the-meter solar ...

The City of Fresno, Calif. Department of Public Utilities (DPU) held a groundbreaking ceremony for the construction of a 27 MW behind-the-meter ...

Relentless Ontario C&I sector gets biggest BTM storage system ...

A recent Convergent Energy + Power project. Image: Convergent. Convergent Energy & Power, a US-Canadian developer backed with investment from Statoil, has just ...

Behind-the-Meter Battery Storage: Frequently Asked Questions

What Is Behind-The-Meter Battery Energy Storage? Energy storage broadly refers to any technology that enables power system operators, utilities, developers, or customers to store ...

Enel X to deploy 40 MWh of BTM battery storage at Ontario oil ...

The energy transition arm of Italy's Enel Group has started construction on a 20MW/40MWh behind-the-meter (BTM) battery energy storage system (BESS) at Imperial ...

Irvine Ranch Water District and Macquarie Capital Announce ...

The award-winning behind-the-meter battery system at IRWD's Michelson Water Recycling Plant is the centerpiece of an even larger 7 MW/34MWh network of 11 battery ...

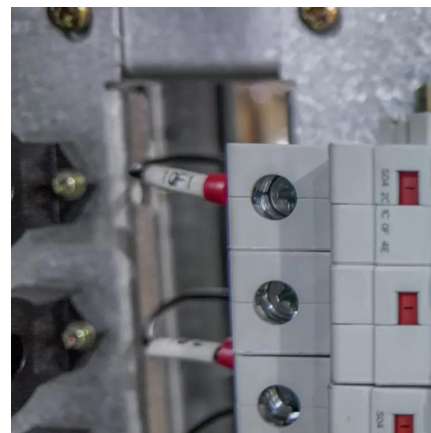

Switch and Capital Dynamics Break Ground on Massive Solar ...

The project, Gigawatt 1 ®, includes the largest behind-the-meter solar plus battery project in the world and will create more than 1,000 new jobs.

Thinking big with battery energy storage Largest behind-the ...

Upon completion in 2022, this system, sized at 20 MW/40 MWh, is believed to be the largest behind-the-meter BESS in North America, based on publicly available data.

[Canada's largest behind-the-meter solar project](#)

Construction has started on two solar projects in the Canadian province of Alberta, including one with a flow battery energy storage system.

[Ontario awards 739MW of battery storage contracts](#)

The Ontario Independent Electricity System Operator (IESO) manages power networks in real-time and is responsible for planning for future ...
