

UK Energy Storage Power Supply Procurement

Overview

Who develops UK energy storage projects?

Major developers of UK energy storage projects include EDF, Pivot Power, Statera, and RES, with each company active in several power supply and flexibility markets, providing services to National Grid, Distribution Network Operators (DNOs), as well as operating in the wholesale energy markets.

Will the UK's largest battery energy storage project get consent?

Additionally in late 2020, consent was granted for the UK's largest battery energy storage project.

What is the long duration energy storage Investment Support Scheme?

Long Duration Electricity Storage investment support scheme will boost investor confidence and unlock billions in funding for vital projects. The UK is a step closer to energy independence as the government launches a new scheme to help build energy storage infrastructure.

Could a new energy storage scheme help the UK achieve energy independence?

The UK is a step closer to energy independence as the government launches a new scheme to help build energy storage infrastructure. This could see the first significant long duration electricity storage (LDES) facilities in nearly 4 decades, helping to create back up renewable power and bolster the UK's energy security.

Could long duration electricity storage be the UK's first energy storage facility?

This could see the first significant long duration electricity storage (LDES) facilities in nearly 4 decades, helping to create back up renewable power and bolster the UK's energy security. These technologies work like giant batteries by storing renewable energy and releasing it onto the grid and into homes when needed.

How many GW of battery energy storage systems have been prequalified?

Out of the 6.9 GW of battery energy storage systems (BESS) prequalified, which translates into 1.9 GW derated capacity, around 1.8 GW of derated BESS secured 15-year contracts in the UK's T-4 auction. This is nearly two time more than the volume procured last year.
