

USA container house wholesale

Overview

What is container Homes USA?

Container Homes USA – Building the American Dream, one container at a time. Our mission is to do one thing and one thing only, and to do it better than anyone else in the world: to build the single most adaptable, durable and sustainable structures on the planet. You get to decide exactly what you want.

What is a shipping container home?

These homes are made by retrofitting steel shipping containers, which are designed to be transported by cargo ships, into livable spaces. The effectiveness of shipping container homes lies in their affordability, durability, and versatility. A 20 ft shipping container can be converted into a small but cozy living space.

How many ft are in a container home?

This U-shaped container home is one 40 ft and two 20 ft units combined to create functional wings of the. This double-wide 1 bedroom container home features two 20 ft units placed side by side and joined in the middle. Our 2-story 3 bedroom shipping container home combines modern design with sustainable living.

What is a multi-container custom home?

By customer demand, what started as primarily single-unit container homes has quickly grown to multi-container custom homes. Using a combination of stacked or adjoined 20ft and 40ft containers, we will create your dream home with features like full-sized kitchens, multiple bedrooms, and spacious living areas.

How are container homes structured?

Examples of how some of our container homes are structured are outlined

below. A one-floor, three-bedroom, shipping container home consists of two 70-foot Karmod shipping containers joined expertly together to create an inviting, cozy, warm, and three-bedroom home. A house that offers excellent value for money, H_2 , which doubles H_1 's floor space.

What is a container house?

CW Dwellings - Your container home from design to delivery. Why container houses?

Why build houses with containers?

Containers are an excellent building material for houses, as they are designed to withstand heavy internal and external loads under the most adverse conditions that a house would ever have to endure.
