

# **Unit price of photovoltaic solar panels in the Netherlands**

## Overview

---

On average, the cost of solar panels in the Netherlands ranges from €3,000 to €8,000 per kWp (kilowatt peak) installed. This price range includes the complete installation cost, including materials, labor, and VAT (value-added tax). Why are solar panels so expensive in the Netherlands?

From transportation to installation, it all goes into the price. The solar panels may become cheaper, the cost of labor in the Netherlands increases dramatically. So you may be just as expensive," says importer Peter Desmet.

How much do solar panels cost?

In addition, the specifications of the panels (such as power) and the cost of installation also play a role. On average, you pay around €500 to €600 per solar panel, including installation. The cost of solar panels depends on the number of panels and the power per panel. In general, the more panels you buy, the cheaper the price per panel becomes.

How much do solar panels cost in 2024?

What do solar panels cost in 2024?

For a roof with 10 solar panels, you pay € 4408 to € 5714 on average in 2024, which you earn back within 4 to 6 years. What your exact investment and payback period are, depend on your wishes and what suits you best.

Are solar panels a good idea in the Netherlands?

One of the frequent reservations about solar energy in the Netherlands is the country's weather. Yes, the Netherlands may not boast the sunniest of climates, but solar panels don't necessarily require blazing sun to function effectively. They can generate power even on cloudy days, albeit at a reduced efficiency.

Why are solar panels more expensive?

In general, panels of higher quality and efficiency can be more expensive.  
Installation costs: These are the costs associated with installing solar panels on your roof. It includes labour costs, mounting materials, wiring and so on. Installation costs may vary depending on the complexity of the project and the difficulty of the installation.

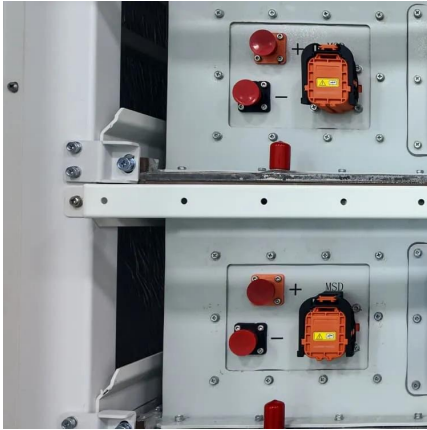

How much do solar panels cost at Coolblue energy?

At Coolblue Energy, you pay € 17.50 per month. How much you pay exactly differs per energy supplier. You do still earn back your solar panels with these costs than a couple of years ago. Are solar panels still worthwhile with feed-in costs?
