

Vanuatu Australia Energy Storage Project

Overview

Supported by the U.S. Department of Energy's National Renewable Energy Laboratory (NREL) and the Australian Department of Foreign Affairs and Trade, this initiative has launched a transformative \$75 million solar generation and battery storage project in Vanuatu. Does Vanuatu have a low electricity access rate?

Vanuatu currently has one of the lowest electricity access rates in the world. Under the RESSET project, New Zealand will serve as the lead donor, providing the majority of funding for the installation of solar arrays and battery storage systems on Efate, near Port Vila, and the island of Tanna.

Does Vanuatu need electricity?

This initiative responds directly to Vanuatu's national climate goals and energy needs by improving access to clean and reliable electricity. Vanuatu currently has one of the lowest electricity access rates in the world.

Will Vanuatu's remote off-grid communities get better access to water?

Over 84,000 people across Vanuatu's remote off-grid communities will soon have better access to water, healthcare or education services, thanks to the country's first two REnew Pacific projects, announced today.

Vanuatu Australia Energy Storage Project

REnew Pacific's first clean energy projects in Vanuatu to deliver

Over the next five years, REnew Pacific will fund locally-led projects that bring clean, reliable energy to remote and rural off-grid Pacific communities, improving services like ...

Vanuatu delays security treaty with Australia over funding ...

3 days ago· Vanuatu is not ready to sign a security and economic treaty with Australia due to concerns about potential restrictions on securing infrastructure funding from other countries.

Hithium, Storion announce non-lithium BESS advances in US

1 day ago· Hithium has launched its AI data centre energy storage system (ESS) portfolio, including a 6.25MWh BESS at the RE+ trade show in Las Vegas, US. Image: Hithium Hithium ...
