## Overview

---

Why is battery energy storage important in Vietnam?

The Vietnam battery energy storage market has experienced significant growth due to the increasing adoption of renewable energy sources and the need for energy storage solutions. Battery energy storage systems (BESS) are critical for storing and managing electricity generated from renewables.

Who is the leading battery manufacturer in Vietnam?

Pinaco is another prominent player in the Vietnam battery market, with an established footprint and a particular focus on lead-acid batteries. The company produces a diverse range of batteries and has maintained strong distribution networks, enabling it to reach a wide customer base across various industries.

Can battery energy storage systems improve power system flexibility?

Recently, Vietnam's National Power Transmission Corporation (EVNNPT) shared that it is looking into Battery Energy Storage Systems (BESS) among several technology options as an appropriate solution. This technology can enhance power system flexibility and enable high levels of renewable energy integration.
