Afghanistan had a total export of 870,488.51 in thousands of US\$ and total imports of 8,568,013.88 in thousands of US\$ leading to a negative trade balance of -7,697,525.36 in thousands of US\$. The trade growth is 36.35% compared to a world growth of -1.26%. GDP of Afghanistan is in current US\$.

What is the US tariffs list?

The US tariffs list shows the tariff rates by country, including both the tariffs charged to the United States and the reciprocal tariffs imposed by the US, as presented by President Trump on April 2nd, 2025. You can find the original tariff exemptions below.

Will US tariffs affect energy storage?

There have also been indications that the US administration may consider other tariff proposals impacting energy storage, such as a 10-20% universal tariff, tariffs of up to 60% across the board on Chinese-origin goods, and tariffs of 25% on Mexican and Canadian origin goods.

Which international trade issues will remain a concern for energy storage projects?

Two major areas of international trade that will remain causes of concern for energy storage projects are the application of tariffs and supply chain integrity.

What are the new tariffs on imported goods?

A universal 10% tariff on nearly all imported goods took effect on April 5, 2025. Shortly after, on April 9, higher country-specific tariffs were applied to dozens of nations deemed to have unfair trade practices – for example, imports from China now face a 34% duty, Japan 24%, India 26%, and the EU

20%.

When did import tariffs come into effect in 2025?

In early 2025, the United States introduced a sweeping set of import tariffs under a new “reciprocal” trade policy. A universal 10% tariff on nearly all imported goods took effect on April 5, 2025.
