

What is the price of inverter in Portugal

Overview

Why is solar energy so expensive in Portugal?

Portugal faces some of the highest electricity prices in Europe, driven by taxes and network costs. With rising electricity costs making it more expensive to power appliances, heat water, and cool homes, solar energy offers a cost-effective solution.

How much does electricity cost in Portugal?

Learn more about solar battery storage. As of 2024, the average electricity price in Portugal is around €0.23 per kWh including taxes (GPP). With an annual consumption of 7,000 kWh, a household could be paying €1,610 per year for electricity.

How do solar panels work in Portugal?

Any excess solar energy that is not used immediately can be fed back into the grid through Portugal's self-consumption scheme. Homeowners receive compensation for the surplus energy they supply. This means even if you're not at home during the day, your solar panels can still generate value by selling energy back to the grid.
