

# **Which new energy storage companies are there in Australia**

## Overview

---

Detailed info and reviews on 17 top Energy Storage companies and startups in Australia in 2025. Get the latest updates on their products, jobs, funding, investors, founders and more. What is Australia's energy storage capacity?

Australia had 2,325MW of capacity in 2022 and this is expected to rise to 22,076MW by 2030. Listed below are the five largest energy storage projects by capacity in Australia, according to GlobalData's power database. GlobalData uses proprietary data and analytics to provide a complete picture of the global energy storage segment.

Will Australia invest \$448 million in battery energy storage technology?

The state of Queensland, Australia, has committed to investing AU\$448 million into battery storage technology at a coal power plant. Australia's energy storage sector has seen trio of significant announcements around major battery energy storage system (BESS) projects.

Will Australia's first energy storage system be operational by 2026?

EnergyAustralia is actively pursuing the development of Australia's first four-hour utility-scale battery, the Wooreen Energy Storage System, with a capacity of 350 MW, set to be operational by 2026 in Victoria's Latrobe Valley. This project highlights the company's commitment to advancing energy storage solutions.

When will battery energy storage systems be available in Australia?

The construction of the grid was anticipated to begin in early 2022 and is expected to be in operation by 2023. Thus, upcoming projects in Australia are expected to boost the demand for battery energy storage systems (BESS) during the forecast period.

What is the energy storage industry?

Energy Storage forms part of the Energy industry, which is the 15th most

popular industry and market group. If you're interested in the Energy market, also check out the top Energy & Cleantech, Renewable Energy, Recycling, Oil & Gas or Energy Efficiency companies. Advanced energy storage solutions.

How many energy storage batteries are there in Australia?

According to the Clean Energy Council, in 2021, 34,731 energy storage batteries with a combined capacity of 347 MWh were installed in Australia, witnessing a growth of 45.7% compared to 2020.

## Which new energy storage companies are there in Australia

---

### [Big battery investment charges up in Q1 2025](#)

The first quarter of 2025 was the second best on record for investment in large-scale Battery Energy Storage Systems (BESS) in Australia, with six projects worth \$2.4 billion ...

### [Influx of new companies and products enter ...](#)

Battery companies hoping to get a foothold in Australia's rapidly growing storage market were the main exhibitors at the Smart Energy ...

### **Clean Energy Australia**

There were records broken in terms of new renewable capacity added, the rooftop solar sector continued to lead Australia's clean energy transition, and the utility scale storage sector had its ...

### [Top five energy storage projects in Australia](#)

Listed below are the five largest energy storage projects by capacity in Australia, according to

GlobalData's power database. GlobalData uses proprietary data and analytics to ...

### [Top Energy Storage Companies In Australia In 2025](#)

Some of the leading energy storage companies in Australia include Tesla, Redflow, Ecoult, and Reposit Power, among others. These companies are playing a critical role in the transition to a ...

### **Clean Energy Council , The Clean Energy Industry ...**

Accelerating the clean energy transition There are tens of billions dollar of large-scale renewable energy projects under construction across Australia Here we ...

### [7 Battery Energy Storage Companies and Startups](#)

This report will discuss some major companies and startups innovating in the Battery Energy Storage System domain.

## Energy Storage Companies Australia

The Australia Energy Storage Systems (ESS) Market is growing at a CAGR of 27.56% over the next 5 years. Pacific Green Technologies Group, ...

## Which companies are the best energy storage stocks ...

Diving deeper into the landscape, several companies have distinguished themselves within the energy storage sector. 1. Tradewind ...

## BNEF: Australian utility appetite for big batteries rising

Interest in owning big batteries is a growing trend for electric companies and coal-plant owners as market revenue potential improves, ...

## [Big Battery Storage Map of Australia](#)

This Big Battery Storage Map of Australia includes all big battery projects of 10MW or 10MWh and above. "Operating" includes those projects currently ...

## Top 10 Energy Storage Companies in Oceania , PF Nexus

In this article, PF Nexus recognises the contributions being made to the energy transition by the Top 10 energy storage companies in Oceania. Oceania's renewable energy ...

## [Top 20 Energy Storage Battery Companies in 2024](#)

Top 20 Energy Storage Battery Companies in 2024 The home energy storage battery market has experienced significant growth over the past decade, ...

## Long-duration Energy Storage and Australia's Net ...

Long-Duration Energy Storage (LDES) is proving to be an important technology for Australia's net zero ambitions.

### [A Company Is Building a Giant Compressed-Air ...](#)

Hydrostor, a leader in compressed air energy storage, aims to break ground on its first large-scale plant in New South Wales by the end of ...

### **Top 7 household energy storage battery brands in ...**

In this article, the top 7 household energy storage battery brands in Australia in 2025 will be introduced, from basic information to latest news ...

### **Which companies are the best energy storage stocks in Australia?**

Diving deeper into the landscape, several companies have distinguished themselves within the energy storage sector. 1. Tradewind Energy, 2. Redflow Ltd., and 3. ...

### **Top 7 household energy storage battery brands in Australia in 2025**

In this article, the top 7 household energy storage battery brands in Australia in 2025 will be introduced, from basic information to latest news about these brands.

## 17 Top Energy Storage Companies in Australia · September 2025

Detailed info and reviews on 17 top Energy Storage companies and startups in Australia in 2025. Get the latest updates on their products, jobs, funding, investors, founders ...

## Long Duration Energy Storage Startups in Australia

Long Duration Energy Storage startups in Australia There are 20 Long Duration Energy Storage startups in Australia which include Raygen, Allegro Energy, Hydrexia, MGA ...

## Top 100 Energy Storage Companies in Australia (2025) , ensun

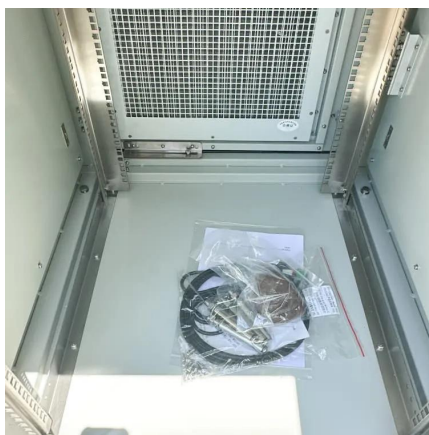

Identify and compare relevant B2B manufacturers, suppliers and retailers. Max. Energy Storage Pty Ltd is dedicated to providing low-cost, zero-emission energy storage solutions, ...

## Australia: The State of Battery Energy Storage in the NEM

This expansion will see some new companies joining the BESS space in a big way - including developer Akaysha Energy, gentailer Origin Energy, and BESS supplier Powin.

## Australia: The State of Battery Energy Storage in the ...

This expansion will see some new companies joining the BESS space in a big way - including developer Akaysha Energy, gentailer Origin Energy, and ...

## Long Duration Energy Storage Startups in Australia

There are 20 Long Duration Energy Storage startups in Australia which include Raygen, Allegro Energy, Hydrexia, MGA Thermal, Green Gravity. Out of these, 12 startup s ...

## 12 Top Renewable Energy Tech Companies in Australia

Detailed info and reviews on 12 top Renewable Energy Tech companies and startups in Australia in 2025. Get the latest updates on their products, jobs, funding, investors, ...

## Energy Storage Companies Australia

The Australia Energy Storage Systems (ESS) Market is growing at a CAGR of 27.56% over the next 5 years. Pacific Green Technologies Group, LG Energy Solution Ltd, ...
