

# **Zambia solar water pump inverter custom manufacturer**

## Overview

---

Why should you choose a solar pump system in Zambia?

Zambia has one of the biggest water resources in Sub-Saharan Africa and our solar pump systems will enable you to access those resources at any place. Either for residential use, irrigation of farm land or industrial applications, solar pumps will ensure an independent water supply at your location.

Why should you invest in a photovoltaic system in Zambia?

Zambia provides optimal conditions for photovoltaic (PV) with average irradiation rates of 5.5 kWh/m<sup>2</sup>. To harvest that huge source of energy we provide a wide range of photovoltaic solutions for the residential, business and social sector. In general, PV systems can be divided into on-grid and off-grid systems.

What is a solar water pump?

Solar powered water pumps deliver drinking water, bathing water, and water for livestock and irrigation purposes. These pumps are particularly useful for

small scale agriculture, domestic or community-based projects. Muhanya Solar has different sizes of solar water pumps to meet your needs.

Do solar pumps need an inverter?

Solar pumps do not need an inverter as they can operate by direct current (DC). Our service includes panel stands which we produce according to your requirements. That will make sure that the system works safely and is protected against thievery. Our services include the supply of a wide range of energy efficient Light-emitting diodes (LEDs).
